Tyrosine- is the precursor to adrenaline-like **Fight** or flight catecholamines dopamine, norepinephrine (noradrenaline). Tyrosine potentiates stimulants by keeping catecholamine levels high.

Caffeine central nervous system stimulant/thermogenic. increases alertness, endurance, painthreshold-performance.

Green tea increases thermogenesis, lipolysis (fat release) and oxidation (metabolism). Maximizes catecholamines by inhibiting the COMT enzyme.

Geranamine. Powerful central nervous stimulant found in geranium oil. Increases energy, motivation mental clarity.

Subtraiamine- thiamine di(2-methylpropionate) disulfide is an Anti-fatigue, Anti-stress thiamine analogue that increases concentration, and dramatically improves reaction time.

PEA a naturally occurring amphetamine-like compound that increases drive, attention, aggression.

Tyramine, CNS stimulant. Increases energy thru noradrenaline release.

Hordenine CNS stimulant that is chemically similar to tyramine. Increases energy and thermo genesis by increasing noradrenaline release.

Evodiamine- a powerful thermogenic, adrenal stimulant found in Evodiae Fructus.

Glucoronolactone a stimulating- stress fighting glucose metabolite that increases energy, concentration and performance.

Self-Micro Emulsifying Drug Delivery System (SMEDDS) for oral bioavailability enhancement. The use of a SMEDDS formulation gives a spectacular **(four fold)** increase in bioavailability.
